نبذة

Alnaseej Al Arabi Company, it was established in the year 2005 AD as a company specialized in supplying machines, machines, equipment and production lines for the embroidery and fashion industry.

The company's expertise has also been enhanced and made it one of the most important suppliers of machinery at the level of the Arabian Gulf region, Yemen and parts of Africa.

The company's expertise is not limited to the supply of machinery and equipment only, as it provides specialized and highly efficient maintenance services for all types of machinery and equipment in the fashion industry sector.

Alnaseej Al Arabi activities: Commercial activities in various fields, including Supply and sale for

- Sewing and Embroidery machines.
- Specialized multi-head embroidery machines that work entirely with computers and their accessories.
- Printers for fabrics, crushing and manufacturing stickers.
- Multi-headed fixing machines (lobes) that work entirely by computer.
- Automatic machines for fixing crystals with both ultrasonic and thermal stabilization systems.
- Automatic sequin fixing machines with the ultrasonic system.
- Automatic pearl fixing machines (Lol).
- All kinds of heat press systems.

نبذة

Founded on decades of textile expertise, ARATEX General Trading LLC is a leading supplier of premium workwear and uniform fabrics, serving manufacturers, distributors, and garment factories across the Middle East, Africa, and beyond.

Our central warehouse in Dubai holds over 1 million meters of fabric, enabling us to supply customers quickly and consistently without the long lead times typical of factory orders. Through our strong partnerships with Toray-associated mills in Asia, we maintain strict Japanese-standard quality control, ensuring each shipment meets international performance standards for color consistency, durability, and comfort.

Our product portfolio covers a wide spectrum of poly-cotton, poly-viscose, and spandex blends, engineered for industrial laundering and long-term wear. We supply both ready inventory and factory-direct programs, giving our partners flexibility in sourcing according to their project scale and delivery needs.

At ARATEX, we take pride in combining technical fabric know-how with responsive service. Whether supporting large uniform tenders or smaller garment workshops, our focus remains on reliability, quality, and partnership.

With roots dating back to 1948 and operations established in Dubai since 2015, ARATEX continues to strengthen its regional presence through efficient logistics, consistent stock, and a commitment to helping customers deliver professional garments built to last.

CENTRAL EXPORTS – A Legacy of Excellence Since 1975. Established in 1975 by Mr. Usman Mansoori, CENTRAL EXPORTS stands as a proud example of heritage, growth, and global reach in the textile industry. What began as a small venture has grown into a well-established group of companies, engaged in the manufacturing and export of home textiles including towels, bedsheets, haj towels, shawls, mens undergarments, and related products. With over five decades of experience, we have built a strong foundation rooted in commitment, reliability, and business integrity. Today, we are not only recognized in India but have also successfully expanded our presence across international markets. Our export network includes countries such as South Africa, Sri Lanka, Yemen, and continues to grow with each passing year.

Cotton Egypt Association (CEA) is a non-profit association, established in 2005. CEA exclusively manages and promotes the registered Egyptian Cotton™ logo trademark, owned by the Ministry of Investment & Trade and Alexandria Cotton Exporter's Association. Its vision is to globally authenticate the legacy of Egyptian cotton and its mission is protecting and promoting the value-addition of Egyptian cotton identity in the supply chain end-to-end. Working closely with local and international companies involved in the Egyptian cotton supply chain, this ensures that products carrying the Egyptian cotton logo are softer, finer and more resilient than those made from other fibers.

CEA is also responsible for the licensing program, The Egyptian Cotton Logo accreditation process is becoming the industry standard in purchasing products. Major retailers in the US and the UK insist that their suppliers for Egyptian cotton products be accredited with the Egyptian Cotton Logo certificate so that they are confident that their distinguished customers will get what they pay for. Authentic Egyptian cotton products made of 100% Egyptian Cotton.

Founded in 1986 as a sole proprietorship and incorporated in 1996, FAYMAK Makina has been a leading manufacturer of industrial ironing systems for over 39 years. Headquartered in Istanbul, the company has continuously expanded its production capabilities and, in 2025, made a strategic investment by establishing a new factory in 10th of Ramadan City, Egypt, transferring its main production line to this modern facility.

Specializing in the manufacture of industrial ironing systems, steam boilers, and heat transfer printing machines, FAYMAK Makina combines long-standing experience with innovative engineering to meet the diverse needs of textile production facilities around the world. The company adheres to the highest quality standards, and all of its products are certified with CE compliance, reflecting its commitment to safety, reliability, and durability.

Through active participation in both domestic and international trade fairs, FAYMAK Makina showcases its strong production infrastructure and technological expertise to a global audience, contributing to the export growth and economic development of both Turkey and Egypt.

Guided by its core principles of quality, trust, and sustainability, FAYMAK Makina continues to strengthen its position as a regional leader in industrial ironing technologies. With a clear vision for the future, the company remains dedicated to promoting locally manufactured, high-quality machinery in global markets while maintaining long-term partnerships based on innovation and customer satisfaction.

Fujian Yonthin Digital Control Technology Co., Ltd. is a professional manufacturer specializing in the development, production, and export of embroidery machines. Our product range includes single-head, multi-head, sequin, cording, and laser embroidery machines, designed to meet the diverse production needs of apparel, home textiles, and fashion industries. At this exhibition, we will showcase our latest generation of high-efficiency intelligent embroidery machines on site. These models feature easy operation, high speed, and excellent stability, making them especially suitable for the Saudi and Middle Eastern markets where high productivity and innovative designs are in strong demand. In addition, Yonthin also provides circular knitting machine solutions to complement textile production lines. With exports to over 50 countries and a strong reputation for quality and service, Yonthin has become a trusted partner in the textile machinery field. We look forward to meeting local manufacturers and friends, presenting our latest models, and working together to drive growth and innovation in the industry.

Ozibilim was founded 50 years ago in Istanbul as a small workshop producing Türkiye's first spreading machine. Ozibilim has become a company exporting cutting automation systems to 55 countries worldwide. With a team of 100 specialized professionals and through the experience, discipline and know-how gained from our domestic and international partners, suppliers and customers, we continue to grow steadily. Production range: Spreader, cutter, loader, inspection machine etc.

SHONY CO., TRADE SOLE AGENT OF MULTINATIONAL MANUFACTURERS
SPECIALIZED IN TEXTILE FIELD SINCE 1978. MAIN P

Our Story

In 1979, Shony Company evolved into a trade agent, introducing multinational companies from Europe and Asia in the dyestuffs and auxiliaries field. In 1995, Eng. Ahmed Elazony took the helm, expanding the company's focus to dyeing, finishing, and printing machinery.

Specializations

- Installation, start-up, and after-sales service for textile machinery and lab equipment.
- Technical team support for textile machinery and lab equipment.
- Yearly service and calibration tours for customers

Company Fields

- Dyeing, finishing, and printing machinery for fabrics and yarn.
- Lab and quality control equipment for the textile industry.
- Local stock of consumables for lab equipment.
